

Dear Madam, Dear Sir,

Ghent University would like to present you and your students the **Erasmus Mundus master courses** which are currently being coordinated by Ghent University promoters.

Although the Erasmus Mundus programme's first aim is to promote European higher education outside the European Union and attract students from 'third countries', the master courses are also beneficial to European students through their **high quality standards, unique mobility schemes, and multiple or joint international degrees.**

Furthermore, some of the master courses have entered into so-called **Action 3-partnerships**, offering European students scholarships to attend part of their curriculum at renowned institutions outside the European Union, and are linked with important **research institutions and/or networks.**

International MSc in Rural Development - www.imrd.ugent.be

Offered by Ghent University together with Agrocampus Rennes, the Humboldt University of Berlin, the University of Cordoba, Wageningen University, the Slovak University of Agriculture in Nitra and the University of Pisa.

The consortium has entered an Action 3-partnership with the following Chinese institutions: the Rural Development Institute of the Chinese Academy of Social Sciences in Beijing, the Nanjing Agricultural University of Jiangsu and the Shandong Agricultural University.

European Master in Nuclear Fusion Science and Engineering Physics - www.em-master-fusion.org

Offered by Ghent University together with the Royal Institute of Technology at Stockholm, the Complutense University of Madrid, the Technical University of Madrid, University Carlos III of Madrid, the University of Nancy I - Henri Poincaré, and the University of Stuttgart.

The consortium has entered an Action 3-partnership with the following institutions: the University of California, the University of Wisconsin-Madison, the St-Petersburg State Polytechnic University, the Moscow Engineering Physics Institute and the University of Science and Technology of China.

Erasmus Mundus MSc in Photonics - www.master-photonics.org

Offered by Ghent University together with the Free University of Brussels, St-Andrews University, Heriot-Watt University and the Royal Institute of Technology at Stockholm.

Erasmus Mundus MSc in Marine Biodiversity and Conservation - <http://embc.marbef.org>

Offered by Ghent University together with the University of Bremen, the University of the Algarve, the University of Paris 6 - Pierre et Marie Curie, the University of Oviedo and Klaipeda University.

European MSc in Nematology - www.eumaine.ugent.be

Offered by Ghent University together with the University of Evora, the University of Jaén and Bielefeld University.

For further questions concerning application, admission, tuition fees, etc. we kindly refer to the above-mentioned specific websites of the master courses. If you would like to know more about Ghent University in general, please turn to www.ugent.be.

We would be very grateful if you could forward this information to interested students and scholars at your institution.

We thank you in advance for your cooperation,

Yours sincerely,

Andries Verspeeten

International Relations Officer

Department of Educational Affairs - Ghent University
