Official Distributors of:

Actually, we need people in the export commercial department, marketing department (SEO, Social media, costumers' prospctions)

### Requirements:

- We need people with good level of languages like English or French.
- People who studied or to study degrees related to this.
- We need people with at least 3 month here, this is because we have to form them because there is a good opportunity to hire them.
- Able to travel for international meetings and showrooms.

The tasks that they will do depends in which department they are, in commercial department they will be involved with all the process in a deal, costumer relationship , international taxes , shipments, incoterms, deadlines , negotiation etc... , for marketing, everything I said before and a bit more of marketing on-line.

The Spanish language is not a problem, in all the departments, our people knows English and they can support them anyway.

If you need something else, please, feel free to contact again with me.

Regards.

Pablo NARIO SOTO
