

[Apply here](#)

Start date

July 2022

Duration

6 months

Languages

Good spoken and written English levels are required (B2 onwards)

Location

Belfast, Northern Ireland

Belfast is the capital city of Northern Ireland and over recent years has seen a period of significant regeneration and growth. The birthplace of the [Titanic](#), this vibrant city has a buzzing nightlife and social scene with many cultural events taking place throughout the year. Close to beautiful countryside including [10 Game of Thrones filming locations](#) and the famous [Giant's Causeway](#), Belfast has something to suit all tastes.

Are you eligible?

You are eligible for an ESPA internship if you are a registered student or have graduated within the past two years and have access to some form of grant funding.

Benefits

See website for details of all ESPA benefits. For all internships over 6 months, additional benefits will be paid. Details available at interview.

Role

This is a fantastic opportunity for a motivated software engineering student to join a fast-growing start-up company specialising in online fashion re-sale. Mentored throughout, you will gain experience across all areas of software development to optimise the user experience on their ecommerce platform. Through a variety of tasks, such as designing UX experiences and delivering quality code, you will be a key player in assuring the future success of this rapidly expanding sustainable business.

You will be working remotely for the first month.

Tasks

- Make front end changes to React/React Native or Next.js apps
- Produce high quality, clean and readable code
- Design and implement great UX experiences
- Plan product development roadmaps and research new solutions
- Support customers in using the software when required

Desired Skills

- Recently completed or in your final year of a degree in Software Engineering
- Experience using Typescript and JavaScript essential, preferably with React/React Native
- Strong communication skills
- Have a creative approach to tasks
- Be a proactive team player
- Ability to work to deadlines and manage own workload

Useful to have:

- Knowledge of back-end development
- Experience with AWS AWS CDK, ExpressJS, Devops and Kubernetes

The Host Company

The host company is a fast-growing, online fashion re-sale business, providing the consumer with authentic, high-quality pieces that are easily accessible via their tech-powered resale solution. With an aim to lower their environmental impact, increase funding for charities and reduce consumer costs, this company is playing a key role in building resale infrastructure and making fashion more sustainable.
