Are you a registered student?

Or

Are you eligible to participate in the Erasmus+ programme?

Benefits

See website for details of all ESPA benefits. For all internships over 6 months, additional benefits will be paid. Details available at interview.

Role

This is a fantastic, potentially career launching opportunity for a student wishing to specialise in Structural Engineering with one of the leading infrastructure constructors and maintenance providers in the UK. Mentored throughout, you will join a growing team of big thinkers who love finding solutions to difficult problems. You will be involved in some high-profile projects such as bridge design, assessment, and inspection, putting your stamp on the future (and history) of the UK's transport infrastructure. You'll be stretched, but always supported, surrounded by people who want you to thrive and embrace new challenges, recognising your hard work and looking out for your wellbeing. If you want to be a part of this great company, then apply today.

Tasks

- Work on key projects and experience working alongside the top specialists in your selected area
- Delivering projects throughout Northern Ireland and further afield.
- Solving complex engineering problems

Desired Skills

- Studying for a MEng/BEng in Civil or Structural Engineering
- Passion for developing your skills both professional and personally
- Strong analytical, written, communication and presentation skills
- Good interpersonal and team working skills, with evidence of problem-solving ability
- Self-motivated with the ability to plan and prioritise time

The Host Company

This host is one of the top five support services suppliers in the UK. Employing 14,000 people, they have a turnover of £2.1bn and a strong forward order-book. As well as providing support services throughout the UK, they are big players in the design, construction and maintenance of the UK's Road and Rail infrastructure and it's here that they are looking for talented individuals to bring high-profile, ground-breaking infrastructure projects to life. Your solutions will have impact, making a genuine difference to people's lives and communities. **If you are a master's student nearing the end of your studies, then this could lead to the offer of a permanent position within their Graduate Programme.**
