Mobility through secondments

The organisations constituting the partnership contribute directly to the implementation of a joint R&I project by seconding and/or hosting eligible staff members.

Such a project must explore activities that can be based on previous work but should go beyond and generate or strengthen long-term collaborations. Secondments must involve physical mobility of the eligible staff members and must always take place between legal entities independent from each other.

MSCA Staff Exchanges can address three dimensions of mobility: international, inter-sectoral and interdisciplinary.

Secondments between institutions that are both located in Third Countries or in the same EU Member State or Horizon Europe Associated Country are not eligible.

Secondments must last at least one month (30 days) and can last a maximum of 12 months.

Duration: The amount and duration of the funding is a maximum of 360 person-months for a maximum of 4 years.
