

RI4C2
Research & Innovation
For Cities & Citizens

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101035803

Living Labs Launch

- RI4C2 International Conference –

16 February, 2024

The Alliance EC2U – European Campus of Cities-Universities has joint to create a shared Pan-European Knowledge Ecosystem (PEKE) by implementing the project RI4C2 – “Research & Innovation For Cities & Citizens” funded by *European Commission's Horizon 2020 „Science with & for Society”* call, Grant Agreement 101035803/04.06.2021.

The EC2U Alliance is a partnership between seven European universities: University of Coimbra, Portugal; Alexandru Ioan Cuza University in Iasi, Romania; Friedrich Schiller University Jena, Germany; University of Pavia, Italy; University of Poitiers, France; University of Salamanca, Spain; and University of Turku, Finland.

The Living Labs for Citizens Science– RI4C2 International Conference aims **to launch** the three **Pilot Living Labs** within existing **EC2U Virtual Institutes (EC2U VI)**, whose **virtual structures are defined on the basis of three** United Nations Sustainable Development Goals (SDGs): Good health and wellbeing (VI GLADE) (SDG #3); Quality Education (VI QE) (SDG #4) and Sustainable Cities and Communities (VI SCC) (SDG #11).

The **Living Labs Launch event** will bring together researchers, professors, students, and other stakeholders, who will present their advancement in the fields of i) Healthy (Home) Office Habits, ii) Languages in Communities and Cultural Biases, and iii) Perceptions of the building environment- Indoor environment and quality of air. The conference promotes an interdisciplinary approach that also aims at fostering networking opportunities, that may give rise to collaborative international projects.
