EC2U Joint Masters

LIFELINE – Lifelong Well-Being and Healthy Ageing

The EC2U Joint Master's Programme "LIFELINE – Lifelong Well-being and Healthy Ageing" is a **2-year Master's Degree** (4 semesters, 30 ECTS each, 120 ECTS in total) that provides students with knowledge, skills, professional and research competences necessary to the **specialists of interdisciplinary approaches concerning lifelong well-being and healthy ageing.**

This degree is in line with professional practice and will **form high-level experts in the health and welfare fields related to well-being and ageing.**

A new university to discover each semester!

The EC2U Campus provides students with the opportunity to study abroad, gain multicultural experiences, and expand their professional network. **Over the course of their learning journey, students can study in up to 4 of the 8 EC2U universities.**

A degree tailored to students' needs

Students will be able to **personalise their curriculum**: they will choose their study plan in accordance with the course catalogue provided by the universities they will be studying at.

Career Opportunities

The objective of this Master's Programme is to train high-level experts in the health and welfare fields related to ageing. For example:

- Manager in national and international biotechnological and pharmaceutical companies
- Laboratory manager in public and private health facilities
- Regulatory affairs expert for structures involved in production programmes and preclinical and clinical trials
- Manager in structures responsible for the surveillance of biotechnological processes with ethical and psychosocial implications
- Scientific researcher at international universities and research institutions
- Consultant in social welfare fields
- Community care case worker and welfare rights officer
- Lifelong well-being and healthy ageing advisor
